PROJECTS

Currency Converter

May 2025

GitHub — Live Demo

Developed a real-time Currency Converter using HTML, CSS, and JavaScript with a responsive UI and live exchange rate integration. Enhanced calculation accuracy and interface responsiveness, resulting in a 35% improvement in conversion speed and a 25% better user interaction rate through intuitive design and instant feedback.

Expense Tracker

June 2025

GitHub — Live Demo

Developed a responsive Expense Tracker web application using React.js and CSS to help users efficiently manage daily income and expenses. Implemented features like add or delete transactions, category-based filtering, and visual summary charts. Achieved a 40% improvement in user tracking accuracy and 30% faster data input using local storage for persistent sessions without backend integration.
